## pintark by loco design.

Pintark, an initiative by Loco Design.

Specialising in material application, product engineering and design strategy, Loco Design operates from Gurugram where it's studio and manufacturing units are located.

Inspired by a heritage of fine craftsmanship and innovation, Loco Design's vision creates contemporary works in the fields of design, craft and enterprise.

Pintark

Steered by values of leadership and integrity, we strive to create aesthetic innovation.

Our entrepreneurial ethos entrusts individuals and teams with independence and responsibility. The essence of our creative distinction, is enriched by our design values, master artisans and technical expertise.

## introduction.

Initiated by LOCO Design, Pintark is an architectural solutions brand specialising in crafted surface treatment and advanced material application.

All Pintark product and commissions are developed, tested and manufactured in-house, giving the brand full control over the product and craftsmanship it offers.

Pintark

## brand pillars.

### DESIGN.

Pintark's design team works to continually evolve product solutions that use the very best of crafted material application.

### MATERIAL.

Our material list is always evolving. Pintark products are offered in a range of natural leathers, faux leathers, technical fabrics along with veneers, acrylics, metals and carbon fibres.

Pintark

### TECHNOLOGY & CRAFTING.

Pintark's team of craftsmen and technicians are able to combine their specialised skills with state of the art technologies, creating unique in-house techniques.

Overarching this is the brand's manufacturing expertise which has been honed across the last two decades, offering robust production across all critical processes.

### SOLUTION INNOVATION.

Staying abreast of relevant developments in design, material and technology, Pintark offers solutions that are forward thinking.

### QUALITY.

Ensuring that every Pintark product meets an international standard in finish, material and technical specification, every Pintark service is offered with a commitment to quality and relevance.

## specialisms.

Inherent to Pintark's surface solutions is the brand's ability to offer crafted distinction. Alongside an evolving portfolio of materials and finishes and the brand's dedication to creating meticulously refined surfaces, Pintark offers a range of traditional crafting techniques for application across its collections. Celebrating the 'surface' and developing new applications for its crafting

expertise is central to the brand's ethos. Cultivated over the years and across materials, this expertise underpins Pintark's vision of offering the finest innovations in surface crafting.
